Wet Chemical Packages

F401 Basic Package: Includes wet chemical analysis to determine percent moisture, crude protein, acid detergent fiber, neutral detergent fiber and total digestible nutrients (TDN) and fats. The turn-around time is normally two to four weeks. The report includes name and e-mail of the Regional Extension Agent or specialist for Animal Science and Forages.

F501 Basic + Minerals Package: Includes wet chemical analysis to determine percent moisture, crude protein, acid detergent fiber, neutral detergent fiber, total digestible nutrients (TDN) and fats. This package also includes ICP-OES wet chemical analysis for calcium, phosphorus, magnesium, potassium, zinc, and copper. The turn-around time for this package is normally four to six weeks. The report includes name and e-mail of the Regional Extension Agent or specialist for Animal Science and Forages.

Sampling Procedures and Policies

- 1) An analysis is only as good as the sample submitted. Every effort should be made to ensure that a good representative sample is taken. Please use 1-quart bags for sample submission.
- 2) If you are unsure of any result that you receive, you may call the lab and request that the component in question be reanalyzed to confirm the original result. Retest requests made within 7 days of the "Date Printed" on the report will be performed free of charge. *
- 3) All pricing is USD per sample. Prices and services subject to change without notification.
- 4) Any samples exceeding recommended sample sizes may be assessed the handling fee at our discretion and without notice. This also applies to other atypical samples that require wet chemical analysis. Visit our website for more information on sampling or call prior to submitting your samples.
- 5) There will be a \$2.00 charge for insufficient paperwork.
- 6) For bulk pricing and wet chemical analysis pricing please contact the lab for a quote.
- 7) For more than 3 samples please use our multi-sample form.

*Please note sample retention times: Wet samples are retained for one-week, dry ground samples retained for one month.
