

Release Date: May 24, 2017

For Public Dissemination Alabama Drought Declaration

In accordance with the Alabama Drought Planning and Response Act (Code of Ala. 1975, §9-10C-1, et seq.) and the Alabama Drought Management Plan, the ADECA Office of Water Resources (OWR), based on a review of current and anticipated conditions, has declared the following portions of Alabama to be under the specified drought declaration levels.

Declaration Level

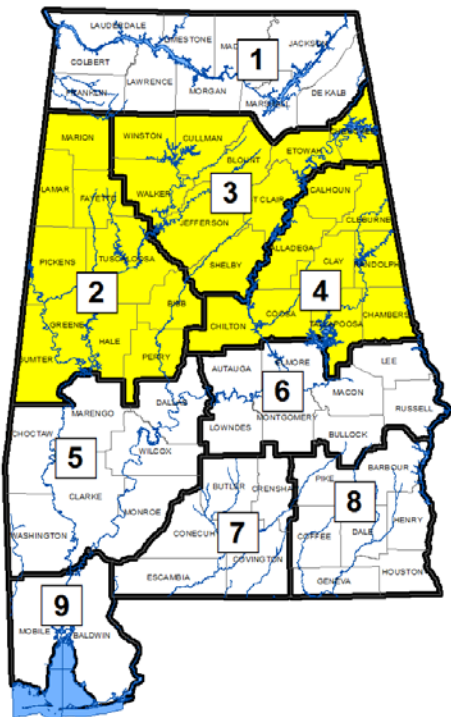

Emergency None

Warning None

Watch None

Advisory **Regions 2, 3, and 4 in the Alabama Drought Management Plan which includes the counties of:** Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Clay, Cleburne, Coosa, Cullman, Etowah, Fayette, Greene, Hale, Jefferson, Lamar, Marion, Perry, Pickens, Randolph, Shelby, St. Clair, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, and Winston

None **Regions 1, 5, 6, 7, 8, and 9 in the Alabama Drought Management Plan which includes the counties of:** Autauga, Baldwin, Barbour, Bullock, Butler, Choctaw, Clarke, Coffee, Colbert, Conecuh, Covington, Crenshaw, Dale, Dallas, DeKalb, Elmore, Escambia, Franklin, Geneva, Henry, Houston, Jackson, Lauderdale, Lawrence, Lee, Limestone, Lowndes, Macon, Madison, Marengo, Marshall, Mobile, Monroe, Montgomery, Morgan, Pike, Russell, Washington, and Wilcox

Widespread rainfall has been a significant factor in the overall improvement in drought conditions across Alabama. While reservoir and groundwater levels are within expected levels at the current time, this could change as we prepare to enter the summer season. This revised Alabama Drought Declaration reflects the improvement in Region 4 from a Watch to Advisory Declaration level and removal of any drought designation level in Regions 1, 6, 7, and 8.

Water managers are urged to carefully monitor water sources and amend water conservation measures as needed. Public water system customers are encouraged to follow their local water system's recommendations regarding water use. All other water users should make prudent decisions on their water use to protect available water resources.
